NEOVELLE™

Extra Pure Hyaluronic Acid

High-quality, cross-linked and highly purified hyaluronic acid. Designed to restore skin volume while preserving natural contours.

Neovelle is a range of dermal fillers formulated with the purest hyaluronic acid, available in 3 specific variants, for targeted results across different areas of the face. Designed to restore skin volume while preserving natural contours.

Our fillers contain a BDDE (butanediol diglycidyl ether) residue of less than 0.08 ppm, do not cause edema, have a high corrective capacity, and provide a smooth, even, and full result.
